

REVLEND INC

CAPABILITY STATEMENT

Revlend Turns Slow, Messy Contractor Payments Into Instant, Documented Payouts

We secure project funds upfront in a dedicated holding account and release payment the moment milestones are approved—giving contractors predictable cash flow and giving owners, GCs, and investors full visibility with an audit-ready trail.

Small Business · Minority-Owned, SDB

Core Competencies

Milestone-Based Payments

Funds held in a dedicated account, released instantly upon milestone approval.

Photo/Video Proof

Evidence-based approvals tied to every draw request.

Audit-Ready Documentation

Complete trail of approvals, comments, and media for every draw.

Owner & GC Dashboards

Real-time project visibility and payment status tracking.

Problems We Solve

- **Cuts payment cycles** from weeks to days
- **Reduces back-and-forth emails** by up to 70%
- **Eliminates spreadsheet-based draw tracking**
- **Minimizes disputes** with documented milestone approvals
- **Provides clean records** when projects are audited

If you're tired of chasing invoices and wondering who approved what, Revlend fixes that.

Past Experience & Traction

50+

Renovation Projects

Residential and small commercial projects managed on-platform

\$2M+

Payments Processed

Volume orchestrated through milestone-based workflows

3x

Faster Payouts

Average contractor payment speed vs. traditional invoicing

Founded by an **MBA-trained operations and marketing leader** with hands-on construction project management experience—Revlend is built by someone who understands both the jobsite and the back office.

Why Revlend — Not Spreadsheets or Generic Tools?

Construction-Specific Workflows

Scope → milestones → approvals → instant payouts — purpose-built for how projects actually run.

Complements WAWF (Wide Area Workflow) & State Systems

Upstream project controls layer that organizes milestones and evidence *before* invoices enter mandated systems.

Both Sides Win

Contractors get cash-flow certainty; owners and GCs get control, visibility, and dispute protection.

Let's Talk
